

Panel Macro

The Panel macro displays a block of text within a customizable panel, like this:

Handy hint: You can use panels within [columns](#), in table cells and in the sections defined by page layouts.

Using the Panel macro

To add the Panel macro to a page:

1. In the Confluence editor, choose **Insert > Other Macros**
2. Find and select the required macro

Speeding up macro entry with autocomplete: Type { and the beginning of the macro name, to see a list of suggested macros. Details are in [Autocomplete for links, files, macros and mentions](#).

To edit an existing macro: Click the macro placeholder and choose **Edit**. A macro dialog window will open, where you can edit the parameters of the macro.

Parameters

Parameters are options that you can set to control the content or format of the macro output. Where the parameter name used in Confluence storage format or wikimarkup is different to the label used in the macro browser, it will be listed below in brackets (*example*).

Parameter	Default	Description
Panel Title (title)	none	The title of the panel. If specified, this title will be displayed in its own title row.
Border Style (borderStyle)	solid	The style of the panel's border. Accepted values are <i>solid</i> , <i>dashed</i> and other valid CSS border styles.
Border Color (borderColor)		The color of the panel's border. Colors can be specified as HTML color names or hexadecimal codes.
Border Pixel Width (Value Only) (borderWidth)		The width of the panel's border (in pixels).
Background Color (bgColor)		The background color of the panel. Colors can be specified as HTML color names or hexadecimal codes.
Title Background Color (titleBGColor)		The background color of the title row of the panel. Colors can be specified as HTML color names or hexadecimal codes.
Title Text Color (titleColor)		The color of the text in the title row of the panel. Colors can be specified as HTML color names or hexadecimal codes.

Wiki markup example

This example is useful when you want to add a macro outside the editor, for example as custom content in the sidebar, header or footer of a space.

Macro name: panel

Macro body: Accepts rich text.

```
{panel:title=My  
title|borderStyle=dashed|borderColor=blue|titleBGColor=#00a400|titleColor=white|bgColor=#72bc72}  
A formatted panel  
{panel}
```
