

Info, Tip, Note, and Warning Macros

The Info, Tip, Note, and Warning macros allow you to highlight information on a Confluence page. They create a colored box surrounding your text, like this:

 Info macro example This text is rendered inside the info macro.	 Note macro example This text is rendered inside the note macro.
 Tip macro example This text is rendered inside the tip macro.	 Warning macro example This text is rendered inside the warning macro.

To add an Info, Tip, Note, or Warning Macro to a page:

1. In the Confluence editor, choose **Insert > Other Macros**
2. Find and select the required macro

Speeding up macro entry with autocomplete: Type { and the beginning of the macro name, to see a list of suggested macros. Details are in [Autocomplete for links, files, macros and mentions](#).

To edit an existing macro: Click the macro placeholder and choose **Edit**. A macro dialog window will open, where you can edit the parameters of the macro.

Parameters

Parameters are options that you can set to control the content or format of the macro output. Where the parameter name used in Confluence storage format or wikimarkup is different to the label used in the macro browser, it will be listed below in brackets (*example*).

Parameter	Default	Description
Optional Title (<i>title</i>)	none	The title of the box. If specified, the title text will be displayed in bold next to the icon.
Show information/tip/Exclamation Mark/Warning Icon (<i>icon</i>)	true	If "false", the icon will not be displayed.

Wiki markup example

This example is useful when you want to add a macro outside the editor, for example as custom content in the sidebar, header or footer of a space.

Macro name: `info/tip/note/warning`

Macro body: Accepts rich text.

```
{info:title=This is my title|icon=false}  
This is important information.  
{info}
```
